

Mohsen Roohani Qadikolaei

Urban & Regional Planner · PhD Researcher, University of Guilan

Department of Urban Planning, Faculty of Arts and Architecture, University of Guilan, Rasht, Iran

ORCID: [0000-0001-8548-5606](#) · Google Scholar: [PH6-EXAAAAAJ](#) · LinkedIn: [mohsen-roohani](#)

PROFILE

Urban and regional planning researcher specialising in spatial and geo-statistical analysis of land use, housing and transportation data. Research links the built environment to road safety, housing markets, urban heat and digital inequality, and applies computational text analysis to questions of power and governance in planning. Co-author of more than ten peer-reviewed articles in journals including *Transport Policy*, *Journal of Transport Geography*, *Habitat International*, *Ecological Indicators* and *Transportation Research Record*, in collaboration with researchers in Iran and Australia.

EDUCATION

PhD, Urban and Regional Planning

University of Guilan, Iran

Department of Urban Planning, Faculty of Arts and Architecture

MSc, Urban and Regional Planning

Shahid Beheshti University, Iran

RESEARCH INTERESTS

- Spatial and geo-statistical analysis of land use, housing and transportation data
- Urban governance, power relations and participatory planning
- Road safety and the built environment
- Housing markets, environmental justice and urban heat
- Digital divide and smart-city inequality
- Remote sensing (Landsat/MODIS), land surface temperature and green infrastructure

METHODS & SKILLS

Spatial analysis	GIS, hotspot / cluster analysis, spatio-temporal modelling, remote sensing (LST, NDVI)
Statistical modelling	Generalised linear mixed models, negative binomial and Tweedie count models, structural equation modelling, regression
Computational methods	Text mining, topic modelling (LDA), systematic reviews (PRISMA)
Design & planning	Urban and regional planning, placemaking, rural planning, AutoCAD

PEER-REVIEWED JOURNAL ARTICLES

- [11] 2026 **Roohani Qadikolaei, M.**, Zali, N., & Soltani, A. Who plans the city? A text mining approach to understanding power in urban governance. *SAGE Open*. doi:10.1177/21582440261461369

RESEARCH COLLABORATIONS

Ongoing collaboration with Dr Ali Soltani on road-safety and housing research using Australian (Adelaide, Melbourne) and Iranian (Tehran, Shiraz, Sari) data, and with Dr Nader Zali (University of Guilan) on urban governance, power and the digital divide.

Publication list compiled from the ORCID record 0000-0001-8548-5606.
